User Story U6: Leaving a comment on an attraction

Purpose: Verify the user story U6 functions correctly.	
Test Run Information: Tester Name: Kyle Gronberg Date(s) of Test:	Prerequisite: None
	Database: JustGoBoulder Browser: Mozilla Firefox 61.0 OS: Windows 10
	Required Configuration: None
Notes and Results:	

STEP	Test Step	Expected Results	Actual Results
1.	Navigate to website via URL.	Homepage is displayed in browser.	
2.	Highlight over an attraction category button.	A dropdown menu with all attractions in that category is displayed.	
3.	Click on one of the attraction buttons in dropdown menu.	The browser navigates to a page displaying all data and comments regarding that attraction.	
4.	Click on "Leave a comment" textbox and start typing.	Able to enter text.	
5.	Click submit button without filling in email and name fields	Comment is not submitted, error popup displayed explaining field requirements.	
6.	Click submit button after filling all required fields with appropriate information.	Page is refreshed with the comment displayed at the top of the comments section. User is subscribed to specific attraction mailing list if not already subscribed.
